

STUDENT ACTIVITY PROGRAMS

The School Committees recognize that well-balanced and effectively administered student activity programs will stimulate student growth and development by supplementing and enriching curricular activities. These student activity programs shall provide varied opportunities for students to grow in areas such as leadership, group interaction, individual responsibility and management, project organization and completion, and social development.

Each student activity group shall define itself, its purposes, sources of revenue and anticipate expenditures, if applicable, and shall be approved by the Principal before being permitted to function.

Rules and regulations for administering student activity programs, a uniform system of accounting, a listing of individual responsibilities and provision for access by telephone in case of an emergency shall be detailed in an administrative procedure to accompany this policy.

Within the limit of Massachusetts General Laws, the School Committees may include provision for student activity funds in its General Fund appropriation. Such funds, when appropriated, shall be made available only to organization funds via the method established by the accompanying administrative procedure.
