

ADVERTISING IN SCHOOLS

School-business relationships based on sound principles and community input can contribute to high quality education. However, the school districts must also protect the welfare of students and the integrity of the learning environment. Therefore, when working together, schools and businesses must ensure that educational values are not distorted in the process.

The School Committees will allow limited advertising consistent with the criteria and procedures set forth in the Advertising in Schools Procedures KHB-R. Final approval for specific advertising will be the responsibility of the Superintendent.
