

# MS PowerPoint: Master Slide

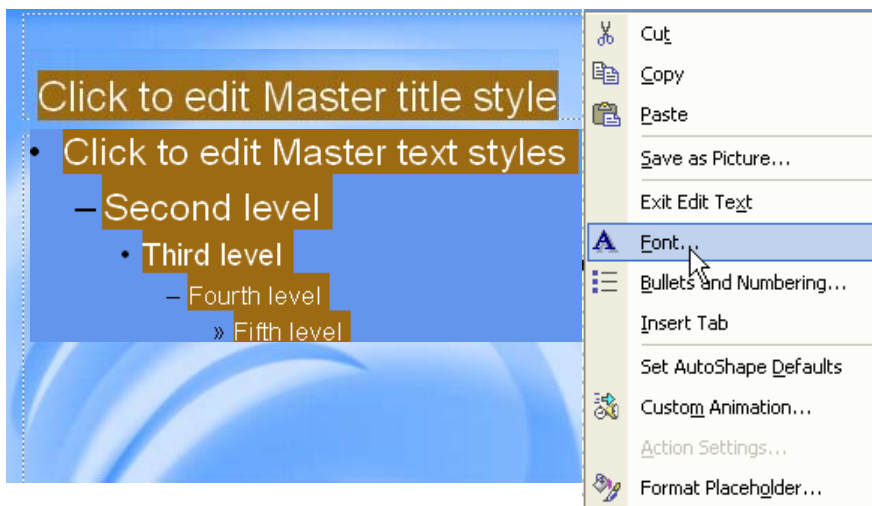

Windows version 2002

**The Master Slide stores information about the design template, such as font styles, background design, and color schemes. Any change made to the Master Slide will automatically affect the rest of your presentation, making it easy to update and edit the design elements in your PowerPoint.**

Go to View>Master>Slide Master

Make desired changes to fonts, bullets, etc.

Go to View> Master>Slide Master to “uncheck” this view and return to the regular PowerPoint view.
