

“As much as I love technology, some days I want to introduce my computer to my sledgehammer!”

Craig Hardimon

Grey Matters

Volume 2

October 12 – 15, 2004

Number 6

After the huge record breaking victory a week ago, the Acton Boxborough Colonials continue to set new records with another victory last Friday night. Now the only question is who will keep the winning streak going the longest, The AB Colonials or the NE Patriots? I'm betting on AB.

Last Friday night RJG held its first 7th grade Social of the year. Overall it was a fantastic event. The kids had a great time and all were well behaved. I'd like to thank Kellie Carter, Jon Duclos, Chris Mohn, Judy Clark, Kerry Byrne, David Wilson, Becky Hadden, Caroline O'Brien, Hye Kyung Dragone, and Jim Goodemote for chaperoning the event. Additionally, thanks to parents Carol Brady, Ellie Halsey, and Patty Sullivan for helping with refreshments and to parents Jan Couch and Beth Petr for their organizational support.

While certainly not of serious concern, it is worth noting that the afternoon was not problem-free. One student left early with a colorful bump on his head after tripping on the bleachers in the gym. Additionally, a few students lost items, such as cell phones. The student with the goose egg on his forehead is fine and, with any luck, all the missing items will turn up on Tuesday.

Parents/guardians, we need your assistance. Please remember to drop off and/or pick up your child at the bottom of the stairs in the lower parking lot only. At the beginning and the end of the day, the front circle is for school buses only. Additionally, when you are visiting the school, please park in the visitor spaces only. These visitor spaces are located in the row against the hill. The rest of the spaces are reserved for the building staff. New signage should be installed soon but in the mean time, your cooperation is greatly appreciated.

For the past week, we have been trying to solve a problem with our email list. A variety of spam prevention updates have derailed our ability to send out announcements to the over 700 addresses on our list. As many of you know, there are often a few steps backward before progress is made and updating our email list is no exception. What was originally only a handful of problems has expanded to the entire list. I need to ask for everyone's patience. The TRC (our tech department) should have this problem solved soon.
